WORK EXPERIENCE

Data Labeler & Reviewer (AI/ML Operations)

- Performed meticulous data annotation and labeling for Computer Vision models.
- Acted as a Reviewer, validating dataset accuracy and ensuring high-quality annotations to maintain data integrity.
- Managed and organized large-scale image libraries and spreadsheet records using Google Sheets and Microsoft Excel.
- Handled documentation, recorded results, and compiled reports for project progress.

MERN Stack & Python Developer

- Developed real-time AI-powered sorting systems using Python, YOLOv8, and TensorFlow.
- Built full-stack web applications using React, Node.js, Express, and MongoDB for reservation and inventory systems.
- Created secure authentication systems and optimized database performance with Mongoose.
- Troubleshoot system bugs and optimized code performance for high-quality digital solutions.

SKILLS

Professional

- MERN Stack: React.js, Node.js, Express.js, MongoDB.
- Programming: Python (TensorFlow, OpenCV), PHP (Laravel), Java.
- Administrative Tools: Google Docs, Sheets, Excel, Word (Docx).
- Data Mastery: Data Cleaning, Preprocessing, and Quality Review

Personal

- Detail-Oriented:
- Problem Solving:
- Communication:
- Adaptability
